WALL: Sunset **60x60** 24"x24"

Stone Collection svela il fascino di una quarzite apprezzata per il suo carattere indomito. Una proposta di grande forza estetica e di genuina naturalità, pensata per rivestire pareti e pavimenti indoor e outdoor. Percorsa da screziature nettamente contrastate, Stone Collection presenta una grafica mossata e cromaticamente ricca, con le quattro tinte che sfoggiano un ampio ventaglio di tonalità, per lo più calde e terrose. Benché morbida al tatto, la superficie possiede un ottimo grado di resistenza allo scivolamento, che permette di estendere la pavimentazione interna anche all'aperto, senza soluzione di continuità tra living e terrazzo o tra cucina e portico, fino al bordo piscina. Un'opportunità in più per dare coerenza stilistica al progetto abitativo grazie a superfici piacevolmente materiche ma prive di asperità, facili da pulire anche quando sono posate in esterno.

Stone

Stone Collection reveals the charm of a quartzite appreciated for its untamed character. A proposal of great aesthetic strength and genuine naturalness, designed for indoor and outdoor wall and floor coverings. Distinguished by sharply contrasting mottling, Stone Collection presents a wavy and chromatically rich graphic design, with four colours displaying a wide range of tones, mostly warm and earthy. Although soft to the touch, the surface has an excellent degree of slip resistance, making it possible to extend the indoor flooring even outdoors, seamlessly between living room and terrace or between kitchen and porch, up to the poolside. An additional opportunity to give stylistic coherence to a living project thanks to pleasantly textured surfaces free of roughness, easy to clean even when laid outdoors.

La Collection STONE révèle le charme d'un quartz apprécié pour son caractère indomptable. Une proposition avec un fort impact esthétique et d'un effet naturel authentique. Elle a été conçue pour le revêtement des murs et des sols en intérieurs et extérieurs. Elle est traversée par des rayures fortement contrastées, Stone Collection présente un graphisme ondulé et riche en couleurs, les quatre teintes proposent une large gamme de nuances, principalement au teintes chaudes et en couleur qui rappelle la terre. Bien qu'agréable au tact, la surface présente un excellent degré de résistance au glissement, ce qui permet d'étendre le sol intérieur même à l'extérieur, sans interruption entre le salon et la terrasse ou entre la cuisine et le balcon, jusqu'au bord d'une piscine. Une occasion supplémentaire de donner une cohérence dans son style pour tous les projets de logements, et grâce à des surfaces agréablement texturées sans l'effet rugueux, faciles à l'entretien, même si elles sont posées à l'extérieur.

Grazie alla sua doppia anima, questa Collezione offre l'opportunità di rilanciare il classico in chiave contemporanea. Si tratta di una proposta unica sul mercato, coraggiosa e di design, che a livello concettuale appare artificiosa e avanguardistica ma che a livello di resa grafica sfoggia una naturalezza classica. Il concetto cardine della collezione è quello di contaminazione, un trend dell'interior design in netta crescita. Molti degli stili codificati risentono oggi di un crescente grado di contaminazione: elementi con diversa provenienza storico-geograficostilistica convivono tra loro, in un universo sfaccettato e citazionista. Questa Collezione porta lo stile classico a collidere con lo stile industrial/metropolitano, all'insegna di una nuova idea di eleganza, sofisticata perché colta e consapevole.

Genesis

21

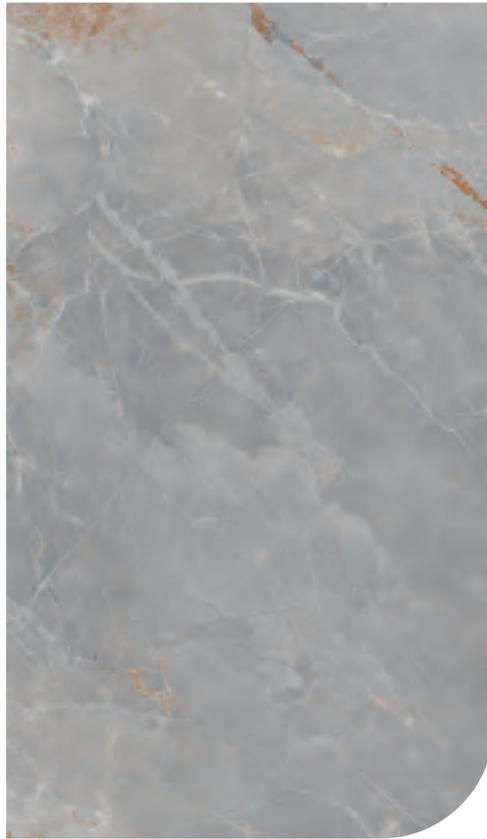

Thanks to its double soul, this collection offers the opportunity to relaunch the classic style in a contemporary manner. It is a unique, courageous and strong proposal for the market, which on a conceptual level appears artificial and avant-garde, but, in terms of graphic performance, has a classic naturalness. The key concept of the collection is contamination, an interior design trend that is arousing growing interest. Many of the styles available today feature an increasing degree of contamination: elements with different historical-geographic stylistic origin coexist, in a multifaceted universe. This Collection allows the classic style to collide with the industrial / metropolitan style, under the sign of a new idea of sophisticated elegance, which is culturally aware.

Grâce à sa double âme, cette collection offre la possibilité de relancer le classique en clés Contemporain. Il s'agit d'une proposition unique sur le marché, courageux et de design, qui sur le plan conceptuel les graphismes soulignent un effet naturel et classique. Le concept clou de la collection est celui de la contamination, entre une tendance nette, en matière de design d'intérieur, et évolution. De nombreux styles existant, souffrent aujourd'hui d'un degré de contamination en croissance : éléments avec des provenances stylistiques historico-géographiques qui coexistent, dans un univers aux multiples faces et aux citations. Cette Collection apporte le style classique pour entrer en collision avec le style industriel / métropolitain, au nom d'une nouvelle idée d'élégance sophistiquée parce qu'instruits et conscients.

Una proposta di grande impatto estetico. La collezione Dolmen rappresenta una pietra rustica e anticata. Richiama la lamiera ossidata nelle colature più scure del fondo, mentre la grana fine e l'assenza di venature può in alcuni colori far pensare a un cotto o a un cemento. Le ombreggiature, le nuvolature e i decisi passaggi di tono le conferiscono un buon grado di stonalizzazione. In questo modo ognuno dei sei colori dispiega in realtà un ampio ventaglio cromatico. Il decoro Affresco sovrappone alla grafica del fondo un motivo damascato di grandi proporzioni che pare indebolito dal tempo. L'incontro di questa pietra-cemento con una decorazione esotica di stampo classico rende Affresco un elemento decorativo antico e moderno allo stesso tempo, indicato per contesti aperti alla contaminazione stilistica.

Dolmen

29

A proposal with a great aesthetic impact. The Dolmen collection represents a rustic and aged stone. The dark background recalls oxidized metal, while the fine grain and the absence of veins can suggest, in some colours, terracotta or concrete. The shadows, the cloud-effects and the decisive changes of tone give it a good degree of shading. In this manner, each of the six colors actually unfolds a wide chromatic range. The Affresco decoration overlaps the graphic background with a large-sized damask pattern, which seems softened by time. The meeting of this stone-concrete with an exotic decoration makes Affresco a decorative element, which is both ancient and modern and suitable for contexts open to stylistic contamination.

Une proposition avec un grand impact esthétique. La collection Dolmen représente une pierre rustique et antique. Cela rappelle la tôle oxydée dans la plupart des coulées plus sombres, tandis que le grainure fine et l'absence de veinages, peuvent dans certaines couleurs suggérer la terre cuite ou le béton. Les ombres, les nuages et les changements nets lui donnent un bon jeu d'ombre et de couleur. Ainsi le monde des six couleurs au complet, se déploie et en fait une large gamme chromatique. La décoration Affresco se superpose aux graphiques d'arrière-plan et forme un motif damasqué de grandes proportions. Il semble affaibli par le temps. L'union de cette pierre-béton avec une décoration exotique d'imprimerie par un moule classique, fait d'Affresco un élément décoratif daté et à la fois moderne, adapté aux contextes ouverts à la contamination des styles.

Un legno dall'aspetto molto naturale ed elegante, caratterizzato da una superficie cerata, tipica dei parquet trattati con cere naturali, che appaiono più caldi e più vivi. La struttura di Glowood, simula il ritiro naturale del legno invecchiato e include incisioni dovute alla piallatura manuale e ai segni di usura del tempo.

Tutto è molto morbido e sinuoso, senza asperità, come se fosse naturalmente levigato da anni di calpestio.

Il corredo decorativo dal design contemporaneo è ricco e incoraggia l'uso della collezione anche a rivestimento. Glowood può essere miscelata a Genesis. Il contrasto tra i due look è sorprendentemente naturale a livello materico e straordinariamente armonico a livello cromatico.

Glowood

37

A very natural and elegant looking wood, characterized by a waxed surface, typical of parquet treated with natural waxes, that appear warmer and more alive.

The Glowood structure simulates the natural shrinkage of aged wood and includes etches due to manual planing and signs of wear.

Everything is very soft and sinuous, without harshness, as if it were naturally smoothed by years of treading.

The decorative kit with a contemporary design is rich and encourages the use of the collection also as wall covering.

Glowood can be mixed with Genesis. The contrast between the two collections is surprisingly natural and extraordinarily harmonious.

Un effet bois très naturel et élégant, caractérisé par une surface ciré, typique des parquets traités avec des cires naturelles, qui apparaissent plus chaleureux et plus vivants. La structure Glowood simule le rétrécissement naturel du bois vieilli et comprend des greves dues au rabotage manuel et signés par l'usure du temps.

Tout est très doux et sinuose, sans aspérité, comme si c'était lissé par l'usure du temps.

Le kit déco au design contemporain, est riche et encourage l'utilisation de la collection en enrobage.

Glowood peut être mélangé avec Genesis. Le contraste entre les deux looks est étonnamment naturel au niveau matière et extraordinairement harmonieux au niveau chromatique.

FLOOR: Grey **60x60** 24"x24" rett.

Circus valorizza la consistenza e la matericità del cemento, così come risulta dall'evaporazione dell'acqua, senza l'aggiunta di graffi, segni di usura, macchie o alonature che ne inquinino l'essenzialità per la quale è apprezzato. Risulta pertanto una collezione in linea con lo stile minimalista ma anche con stili più metropolitani, fino a un'industrial essenziale e sempre elegante.

I grandi formati ne valorizzano l'estetica complessiva rendono Circus una proposta ideale per contesti di pregio, per una clientela evoluta

Circus

Circus enhances the consistency and materiality of the concrete, as it turns out from the evaporation of water, without adding scratches, signs of wear, stains or halos.

This is the essentiality for which it is appreciated. It is therefore a collection in line with the minimalist style, but also with more metropolitan styles, up to an essential and always industrial Elegance.

The large sizes enhance the overall aesthetics make Circus an ideal proposal for contexts of value, for an evolved clientele.

La Circus renforce la cohérence et la matérialité du concret, comme il s'avère lors de l'évaporation de l'eau, sans le rajout des rayures, traces d'usure, taches ou aureoles qui enlèvent l'essenzialità pour laquelle elle est appréciée.

C'est donc une collection en ligne avec du style minimaliste mais aussi avec plus de styles métropolitain, jusqu'à une élégance essentielle et toujours effet industriel. Les grands formats améliorent l'esthétique dans sa globalité, et font de Circus une proposition idéale pour des contextes de prestige, et pour une clientèle évoluée.

Con Touch Evo, la collezione Touch si arricchisce di un elemento che, a rivestimento, non ha mai smesso di esercitare il suo fascino: il colore.

Si tratta di tinte acquarellate, che restituiscono l'autentico sapore delle resine colorate, monocromatiche ma niente affatto compatte. Le 4 tinte della collezione dispiegano infatti una rosa di toni molto vicini tra loro. Ciò genera, all'interno di quelle che parrebbero tinte unite, un grande dinamismo cromatico.

Il decoro Tropical presenta un motivo botanico che propone tutti i colori della gamma, coi quali è abbinabile in modo trasversale.

Il decoro Charme si esprime sia in orizzontale sia in verticale. Omaggia le decorazioni tipiche delle carte da parati, per valorizzare nicchie e quinte decorative con inserti posati a tutta altezza.

With Touch Evo, the Touch collection is enriched by an element that, as a covering, has never ceased to exert its charm: colour. It is a matter of watercolors, which give back the authentic flavour of colored resins, monochrome, but not at all compact. In fact, the 4 colors of the collection display a range of tones that are very close to each other. This generates, within what would appear to be solid colors, a great chromatic dynamism. The Tropical decoration features a botanical motif that offers all the colours of the range, with which it can be combined in a transversal way. The Charme decoration is expressed both horizontally and vertically. It pays homage to the typical decorations of wallpaper, to enhance niches and decorative wings with inserts covering the entire height.

Avec Touch Evo, la collection Touch s'enrichit d'un élément qui, en tant que revêtement, n'a jamais cessé d'exercer son charme : la couleur. Il s'agit de couleurs pastelles, et qui restituent la saveur authentique des résines colorées, monochrome mais pas du tout compact. En effet, les 4 couleurs de la collection affichent une rose dans des tons très proches les uns des autres. Cela génère, dans ce qui semblerait être des couleurs unies, un grand dynamisme chromatique. La décoration Tropicale présente un motif botanique qui offre toutes les couleurs de la gamme, avec laquelle elle peut être coordonnée de manière transversale. La décoration Charme s'exprime à la fois en sens horizontal, et vertical. Il rend hommage à certains papiers peints, pour enrichir des niches et des ailes décoratives à toute hauteur, toute surface.
