**Un rivestimento che, dal punto di vista cromatico, completa la collezione in gres porcellanato Core semplificandone la texture grafica e raffinando la grana del fondo; arriva così a suggerire una via di mezzo tra una pietra e un cemento, idea confermata anche dal decoro Blind, con la sua struttura a rilievo che ricalca il cassero.**

A covering that, from a chromatic point of view, completes the Core porcelain stoneware collection by simplifying the graphic texture and refining the grain of the background; thus it comes to suggest a middle way between a stone and a concrete, an idea also confirmed by the Blind decoration, with its relief structure that follows the formwork..

Un revêtement qui, d'un point de vue chromatique, complète la collection de grès cérame Core en simplifiant la texture graphique et avec un graphisme adouci dans les unis ; il en suggère ainsi un effet entre la pierre et le béton, confirmée par le décor Blind, avec sa structure en relief qui suit le coffrage.
